RE: Inspection of Sesko properties

At your request, I visited two sites of concern:

- **3536 Arsenal Way**

This residence was posted with an Notice to Vacate dated 2/11/97. This afternoon, I rang the doorbell and was approached by *Natacha*. I asked her if she was residing at this residence and she stated: "*I've been living here since the notice was posted*". William Sesko popped his head out the door and replied: "*We have a hearing on the 8th*". Natacha further stated that she was moving into *your* household. I said thank-you and left the premises.

- **1701 Pennsylvania**

I found no significant change in the condition of this site since my last visit on 1/30/97. I took additional photos for our files.
